Good morning Mark,

Thanks again for the opportunity to review this report and I apologize for getting it back late.

Please feel free to contact us if you have any questions.

Kind Regards,  
Andrew

Legacy Uranium Site - A6K6

Hello Mark,

Johanna and I have been working really hard to get you our comments. We really appreciate the opportunity to review and we hope that you will find our comments useful. Having said, we will be a little late and may not get through all of it.

I will add that we believe that the report is an extremely important document and we generally agree with the approach, but we are recommending some major revisions and resubmitting the report for additional editorial and technical reviews.

Speak with you soon.

Kind Regards,  
Andrew

All,

This is just a reminder that EPA Region 6 has asked for technical comments on the draft Phase 2 ground water report by February 7, 2018, which is only a week from tomorrow. Region 6 will be moving forward to finalize the document at that time.

We appreciate you taking the time to review it and look forward to receiving your comments.

Thank you.

Mark
